Introduction

ASLED Lighting Company is established in 2012. We provide creative, energy-efficient lighting solutions for all types of projects.

We design and build automation lighting control systems project kinds in Vietnam: Smarthome, Resorts, Office, Complex villas, Warehouse, Landscapes, facade lighting, ...

We R&D and technical departments strive to develop innovative LED lights, smart home solutions with the latest technologies and control. We participate intimately throughout design development and contribute embellishments with noble, valued materials that endure.

ASLED consult, design, manufacture, supply and project manage decorative and architectural lighting for interior and outdoor installations.

Lighting control systems:

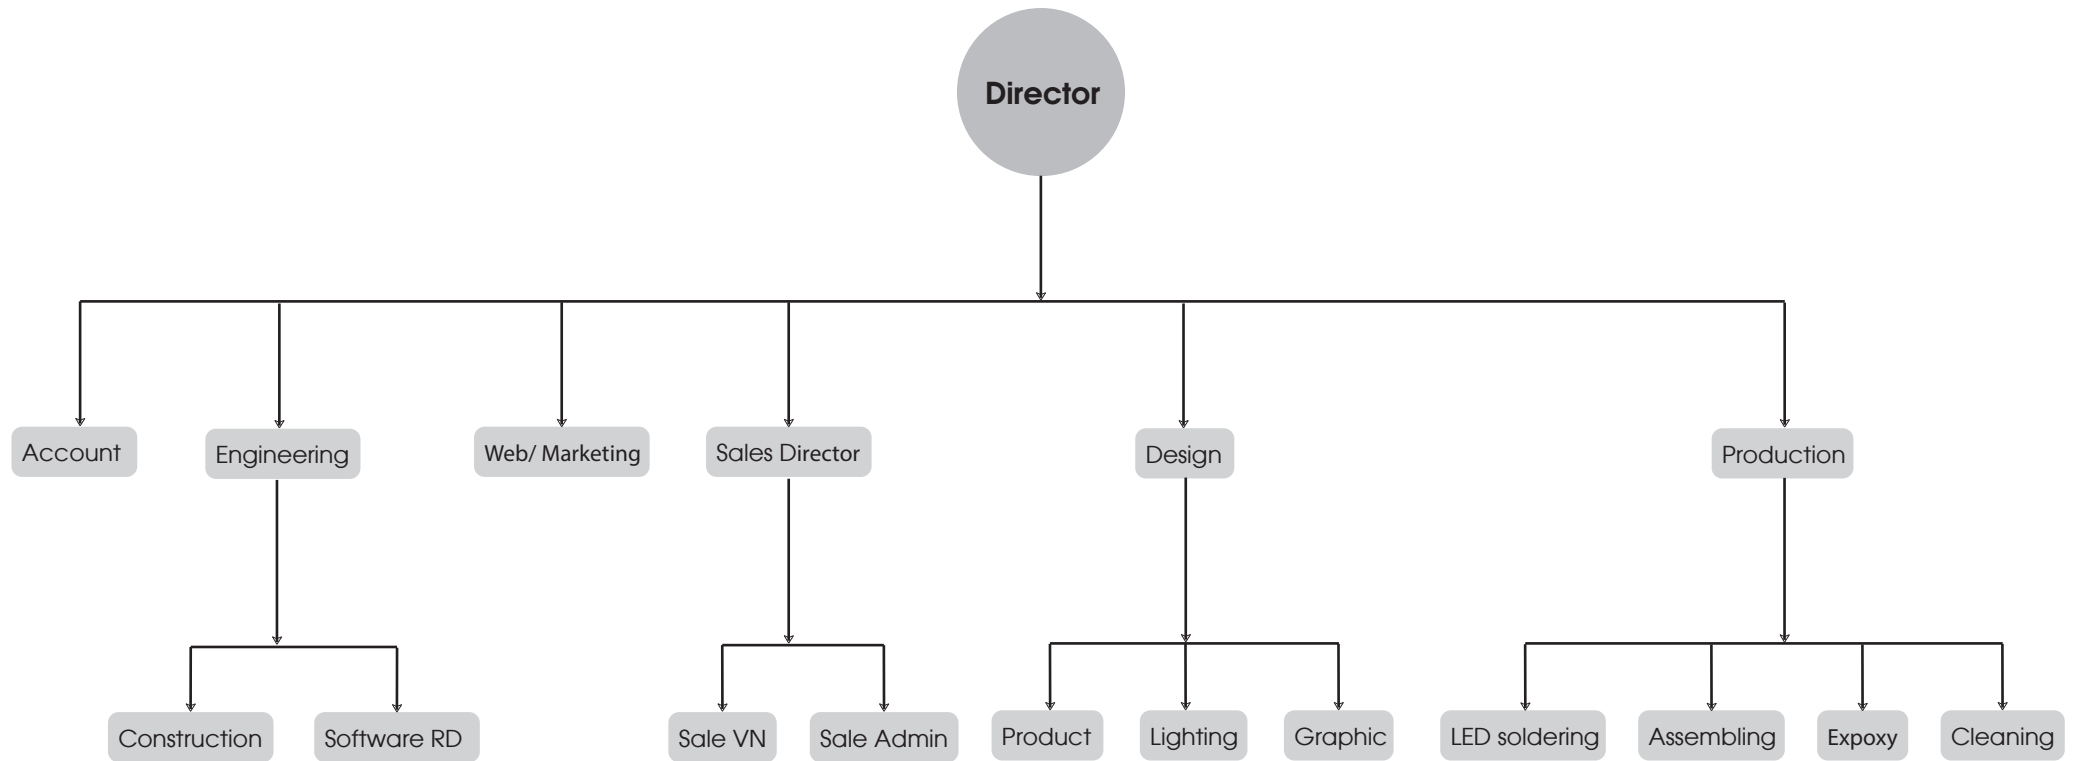

- Smart controls: remote, touch panel, smartphone, tablet, PC, ...
- Dimmable: Triac, DALI, Push button, DMX
- Madrix control lighting: facade lighting, landscape, stage, live show, bar ...
